

## Water Drinking Faucet (Stainless Steel) 7780-G5-80S1

### INTRODUCTION:

" Tai Chi series" is designed by the sculptor "Ju Ming", this series showed the beauty of the art is the shape of human's motion. The design of inspiration also used the concept of the human's motion, it simply the Tai Chi movement to integrate into the faucet design. Water Drinking Faucet could fits for the modern kitchen arrangement- small and saving space.

### DESCRIPTION:

- 1.Using the #304, #303 stainless steel as the material makes the drinking faucet possess the character of acid-resisting, heat-resistant and erode-resisting. The surface is without the chemical painting to protect the users from harm.
- 2.The cartridge structure of the handle is different from the traditional brass cartridge, rubber cartridge and ceramic cartridge. It is designed with the stainless steel central structure and the lifespan of handle is up to 50,000 switches test.
- 3.This product can be used in the public space. The spout is used by pressing, this structure can reduce waste of water.
- 4.The spout can be swiveled for 360° if needed.
- 5.Water flow rate: over 4920 c.c./per minute(under 50PSI).
- 6.Fitting for all kind of R/O reverse osmosis water drinking systems.
